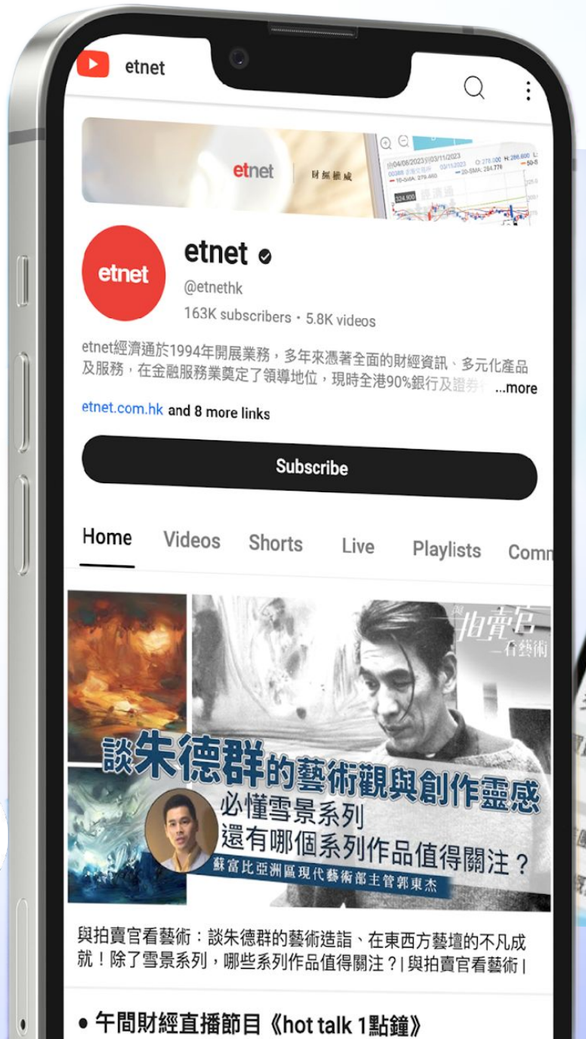
etnet.com.hk

Founded in 1994 by HKET Group (Stock Code: 0423)

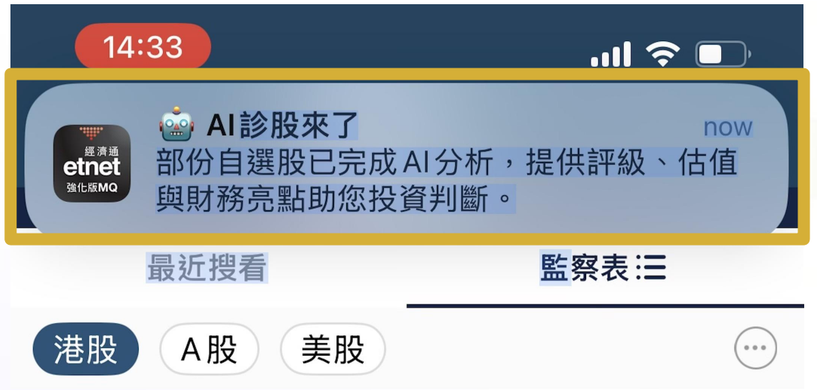
No.1 Chinese Financial News Agency in HK

Market coverage over 80%

Finance · Lifestyle · Health · Luxury



Instant AI Diagnosis Transforms the User Journey



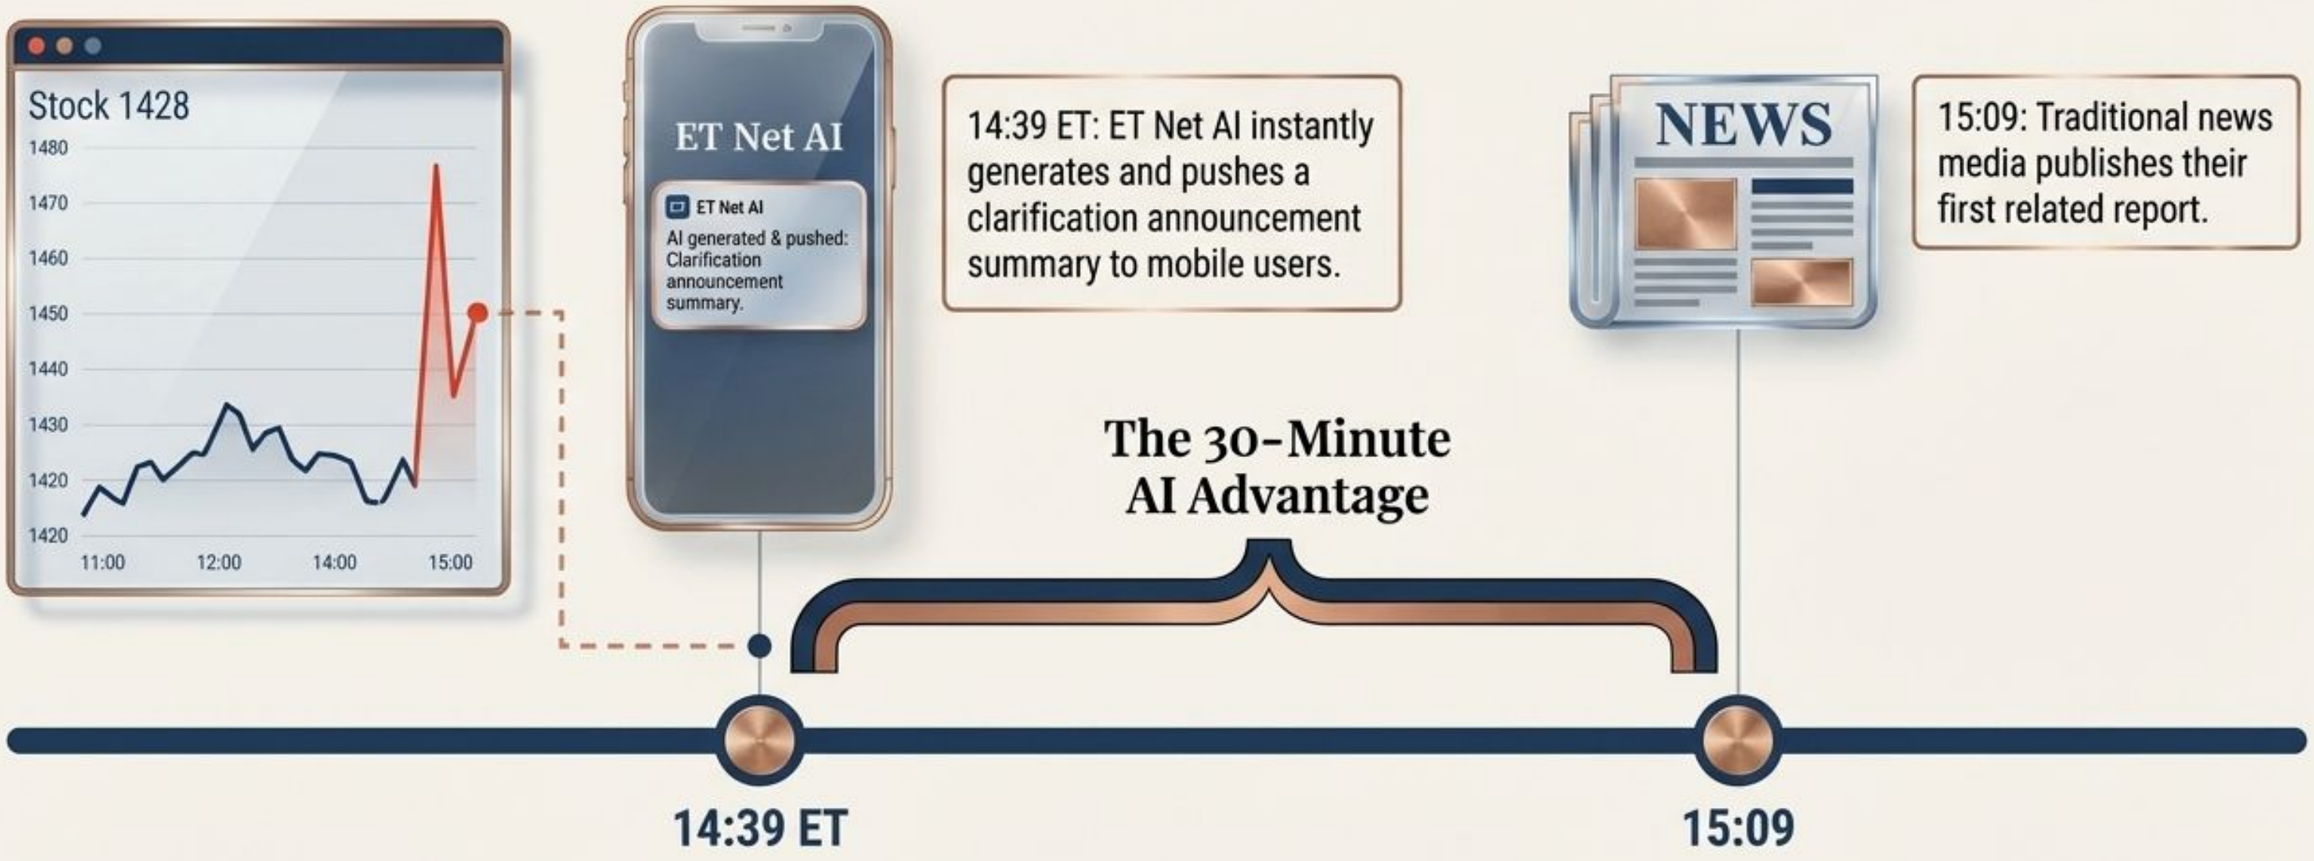
Achieved over 35% total user penetration in the first 3 months

Sustained a strong retention rate, with 28% of users still active after 30 days

Increased average participation time by 7%

35% **28%** **7%**

The Ultimate Differentiator: A 30-Minute Lead



"This is not a tech demo—this is live functionality directly driving user engagement and sales conversations."

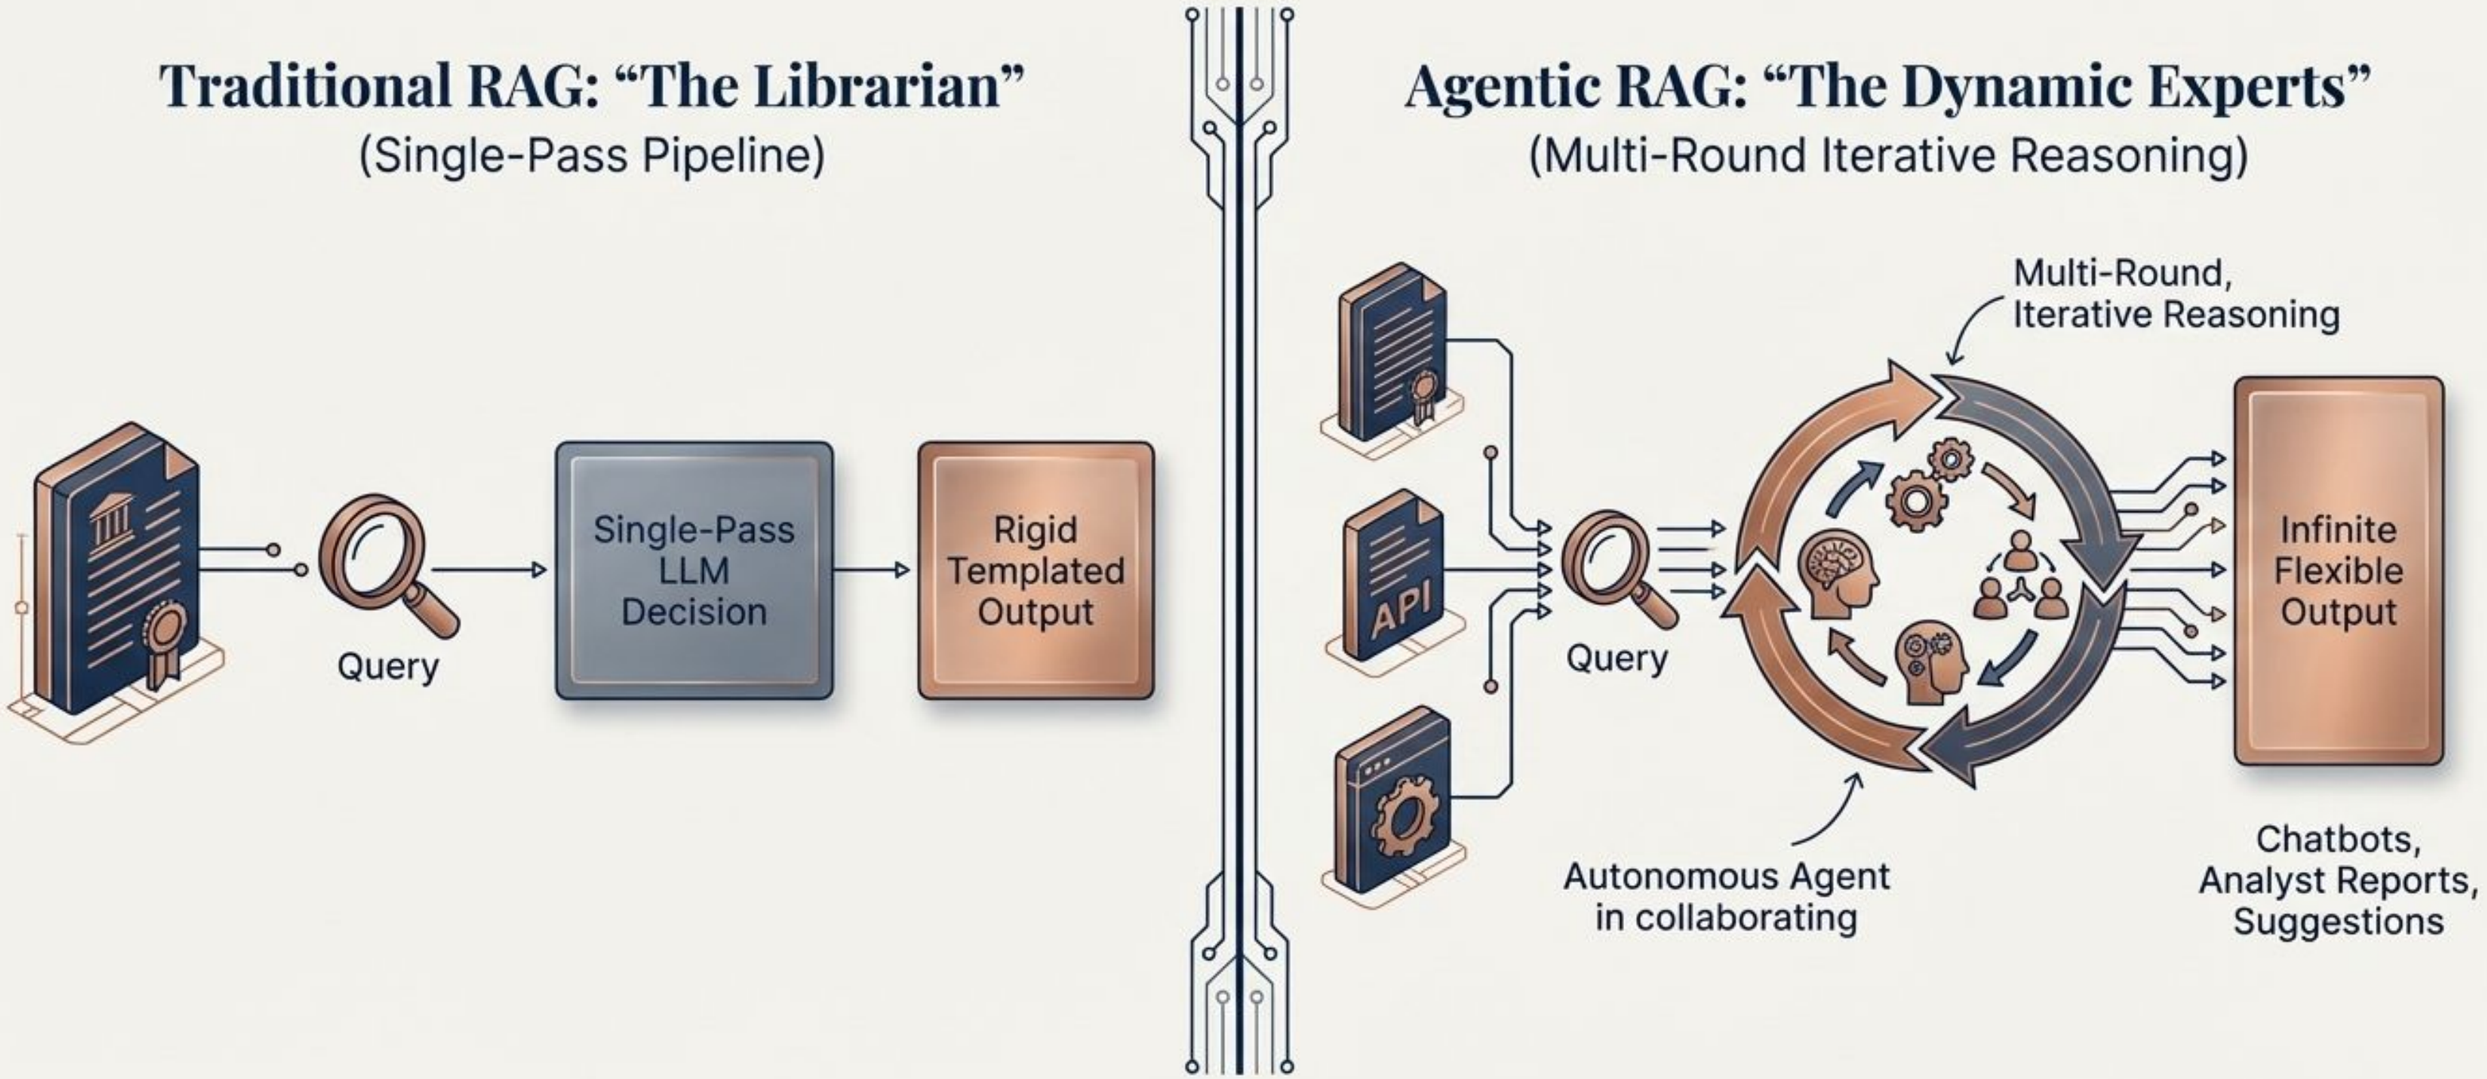
The Architectural Evolution of ET Net's AI

In-House Productivity
LLMs for Internal Apps

The Era of RAG
Live AI Content for Users

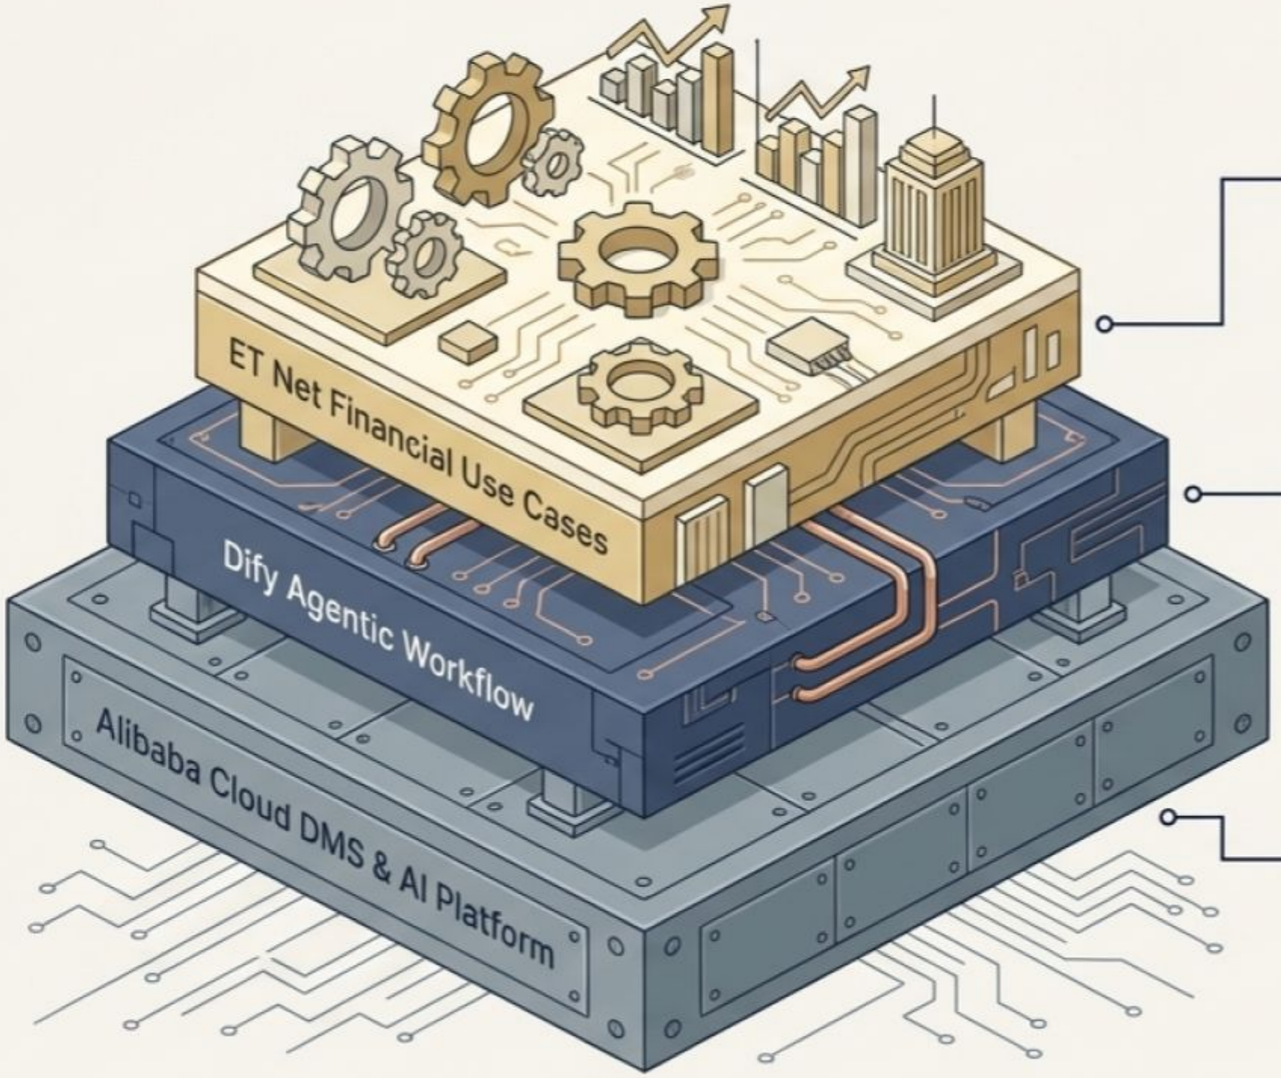
Agentic AI Platform
Revolutionizing User Experience

The Paradigm Shift: Why Traditional RAG Insufficient



The Multi-Agent Command Center

Outsourcing the Plumbing, Mastering the Finance



ET Net
Focus use cases

Dify
Agentic Workflow Ecosystem

Alibaba Cloud
Infrastructure of LLM and cloud computing

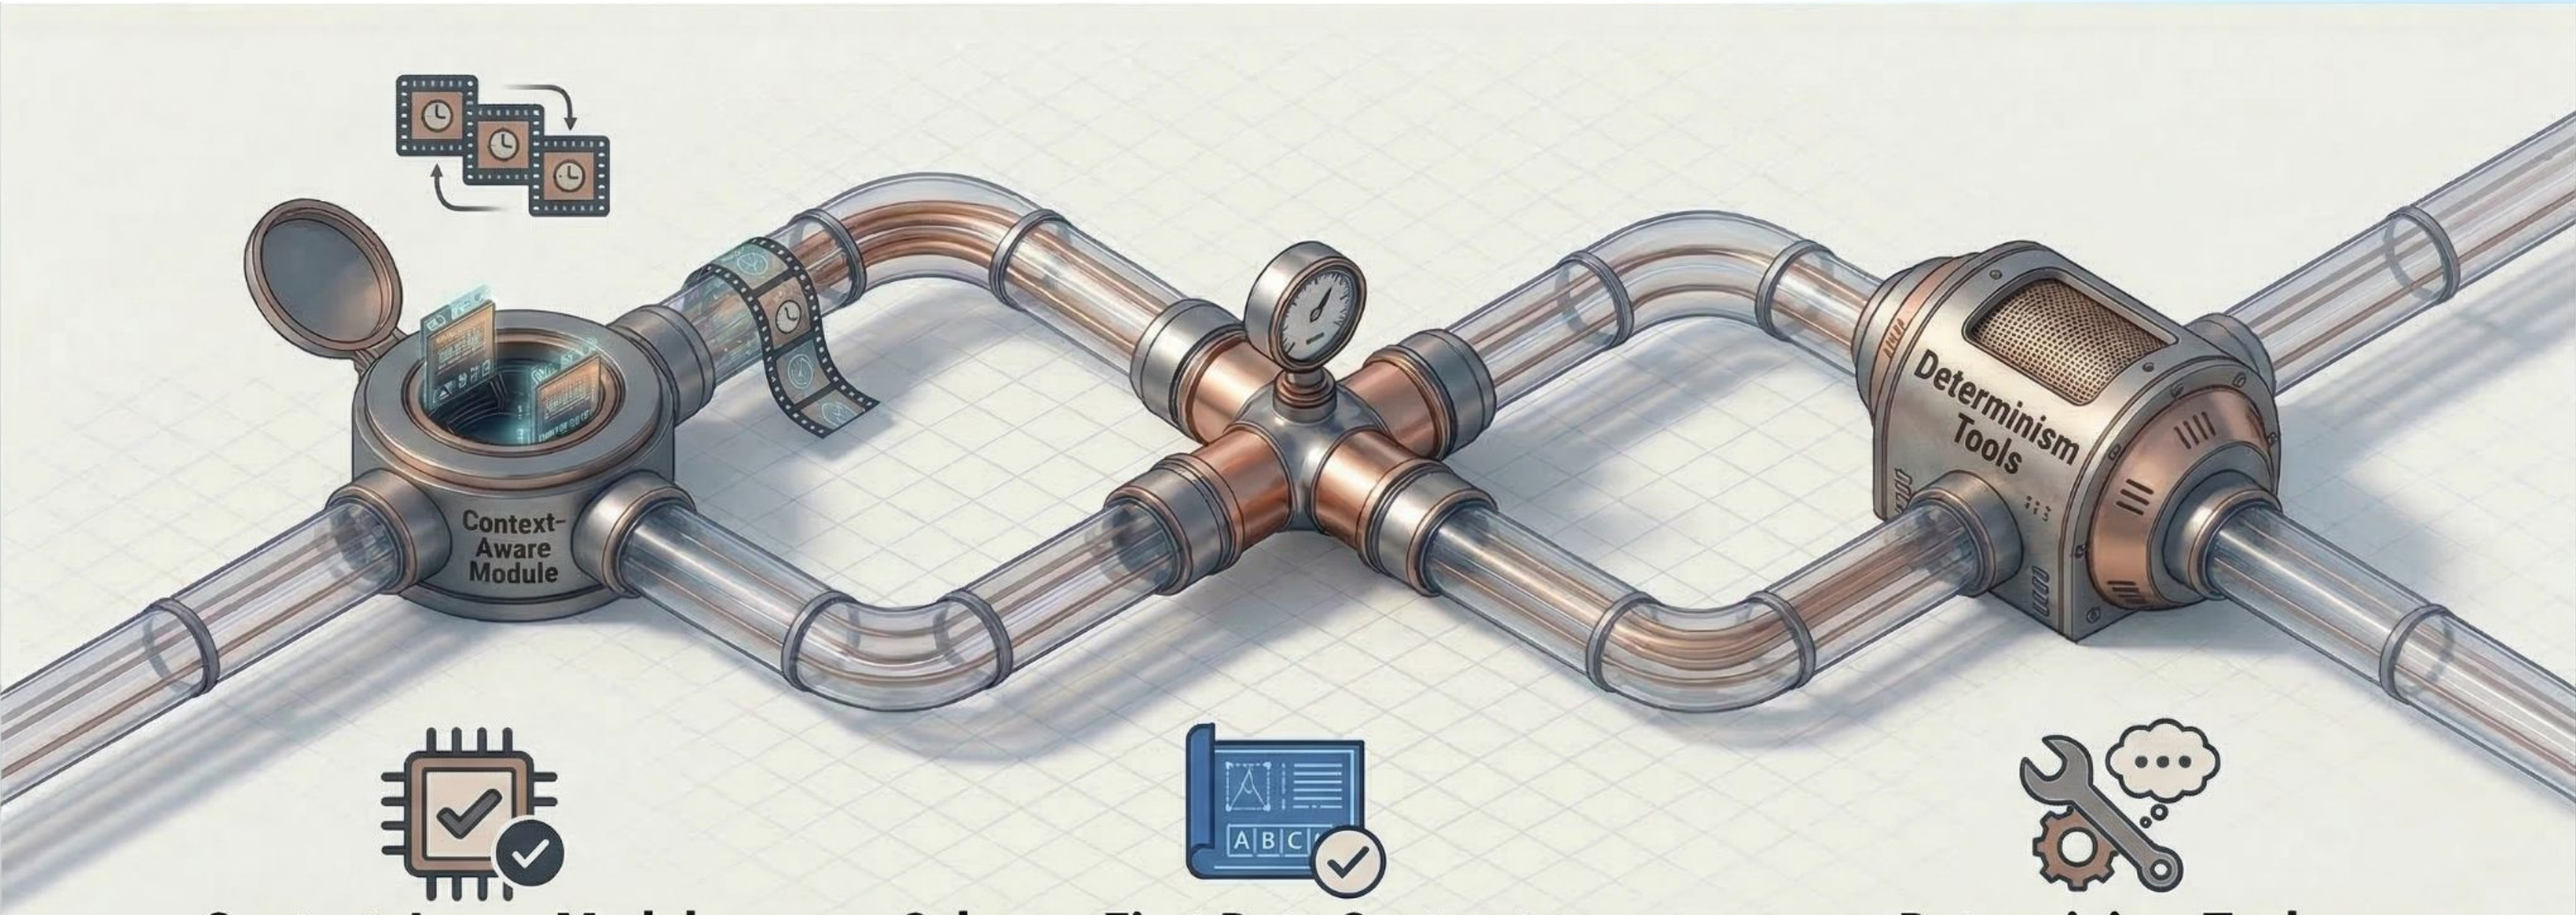
The Enterprise Technology Blueprint

Alibaba Cloud Infrastructure & AI Platform	Dify Agentic Workflow & Ecosystem
Alibaba Cloud DMS	Dify Agentic Workflow
Alibaba Model Studio	Low-Code Tools
PAI (Platform for AI)	Over 50,000 Lines of Prompts
Qwen3 Models	Over 30 Specialized Agents

In the Finance Market, Trust is Engineered, Not Generated.

AI in highly regulated environments cannot rely on prompt-engineering alone

The Infrastructure of Truth: Enforcing Integrity in RAG



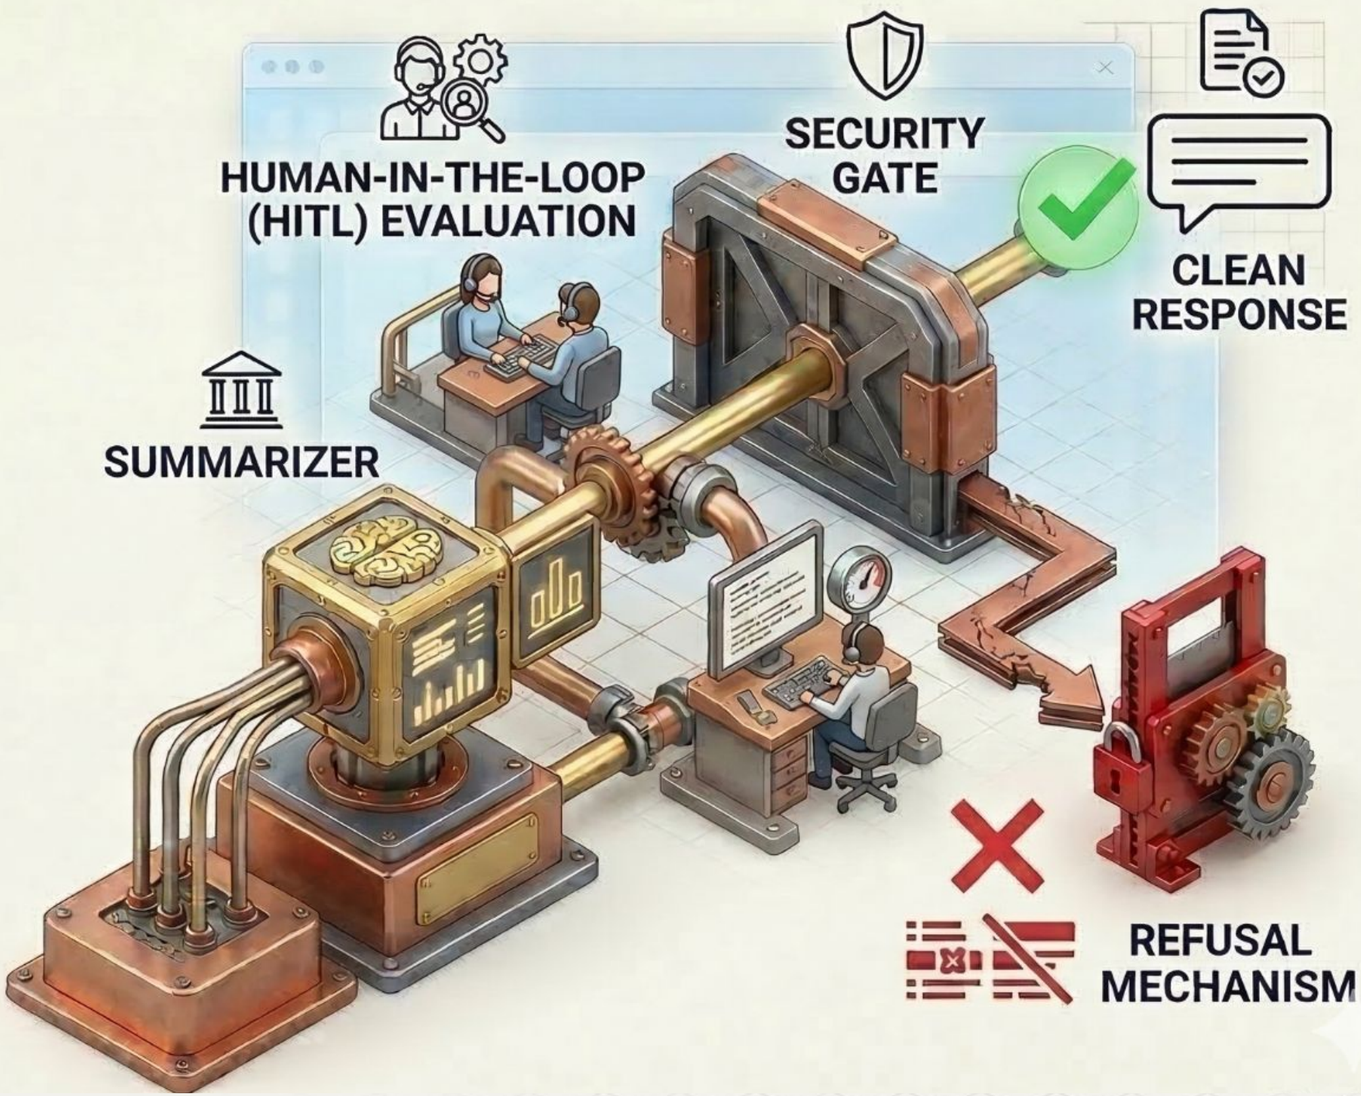
Context-Aware Module:
Total Data Provenance.
Confidence Tags for Timestamp and Source Authority.

Schema-First Data Contracts:
Eliminating Ambiguity through Rigid Ingestion.
Field & Type pre-validation.

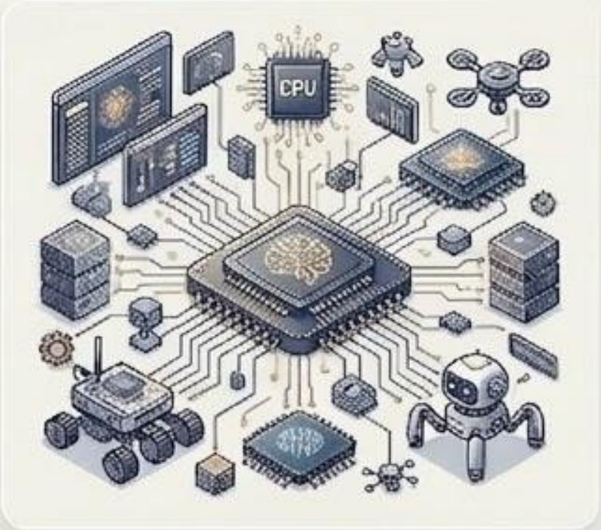
Determinism Tools:
Offloading Math & Logic to Hardened Code.
Non-probabilistic outputs.

Enterprise Trust Requires Hardcoded Architectures

- **Point 1:** Smart Summarization
- **Point 2:** The Architectural Shield
- **Point 3:** Human-in-the-Loop Validation



ET Net AI Solution: The Three Pillars



Pillar 1: Agentic Multi-Agent Command Center
(The Dynamic Brain – True Collaborative Reasoning)

Pillar 2: Verified Data Foundation
(Accuracy Starts Before the AI)

Pillar 3: Use Case (Adaptive Investment Co-Pilot)
(Partner of your stock investment)

AI Everywhere | Smarter Anywhere

We are moving from a world where investors dig for information, to a world where personalized, highly accurate financial intelligence is delivered directly to them.

At ET Net, we aren’t just participating in the AI revolution.
We are engineering the trusted financial brain of tomorrow.
